Tips for Nominators

Tips for Nominators:

-Include specific examples of the nominee's contributions to the betterment of each co-operative they've been involved with. In addition to listing the boards and organizations the nominee has worked with, provide examples of the role they played in some of the milestones or significant achievements of the organization. We recommend that you share stories of the impact your nominee has had. Only submitting a listing of the nominee's roles will not be sufficient to earn them a Co-op Merit Award. **The Committee is looking for stories and details of the actions your nominee has taken and how your nominee has created a positive impact.**

-You may need to gather information from other co-operatives or organizations they've been involved in so that you can submit a complete application. Letters of support will strengthen your nomination. Ask those who have worked or served with the nominee to write a letter outlining stories and specific examples of the nominee's contributions to co-operatives.

-Nominations are not only assessed on length of service, but also on the specific contributions and innovations the nominee has made to the organization(s) and the community while in each role.
